COMFORT FOR LIFE

"I'm a Daikin Comfort Pro"

Those five simple words can offer you comfort like you've never experienced. The words mean that the dealer you invited into your home is a highly-qualified and continuously-trained professional who will quickly, efficiently and effectively help to solve any of your indoor comfort needs.

All Daikin Comfort Pro dealers seek to achieve the highest levels of customer service, business integrity, and technical competency. These range from maintaining an excellent rating with their local Better Business Bureau (BBB) to taking continuing education classes on how best to install and service Daikin brand products. To retain this status, Daikin Comfort Pros must deliver their best abilities to each and every customer, year after year.

A commitment to your comfort

Daikin Comfort Pros believe that a well-informed homeowner is the best possible customer. All Comfort Pros will take the time to help understand your unique comfort needs, assess the performance of your current indoor comfort system, and thoroughly discuss all options with you.

A commitment to provide you the right service and products

Daikin Comfort Pros have access to one of the most complete lines of indoor comfort products and systems available. As the #1 manufacturer of indoor comfort systems and refrigerants in the world, Daikin offers you a full line of comfort solutions that ensures that a Daikin Comfort Pro can provide the perfect solution to your home.

A commitment to serve you over the long term

Daikin Comfort Pros want to earn your business. They want to be your long-term provider for all your indoor comfort needs. To help deliver on this commitment, you can take peace of mind with the limited warranty* coverage offered on your Daikin brand indoor comfort product or system. The Daikin Comfort Pro has access to one of the best limited warranty* programs in the indoor comfort industry.

*Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration not required in California or Quebec.

AIR HANDLER

VARIABLE SPEED | DVPVC

UP TO 23.0 SEER PERFORMANCE

Comfort for Life

Daikin is a global leader for indoor comfort, with millions of systems installed throughout the world.

Daikin has been improving the comfort of its customers with exceptional products and services for many generations.

To explore all of our solutions for premium indoor Comfort for Life, visit www.daikincomfort.com.

Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin brand is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step farther by choosing a Daikin brand energy-efficient air handler. We have designed and engineered all of our products to provide years of consistent indoor comfort – delivering you and your family premium *Comfort for Life*.

Bold performance

The Daikin brand DVPVC high-efficiency variable speed air handler delivers optimum performance and comfort all season long. The DVPVC variable speed air handler has advanced operating parameters integrated into the controls. These controls are designed to ramp the motor up and down, adjusting the output and ultimately providing even temperature and humidity throughout your home. Thus, it provides you with outstanding indoor comfort and energy efficient operation.

All-Aluminum durability

The all-aluminum evaporator coil in the Daikin air handler is built using thick-walled tubing for durability. The special grooved interior surface of the tubing also increases heat transfer (compared to smooth-sided tubing) for efficient cooling performance. The Daikin all-aluminum coil is a premium comfort solution that will provide you with comfort and efficiency well into the future.

Variable speed blower

The microprocessor-controlled variable-speed motor provides smooth system startup and shutdown, reducing rapid changes in sound levels and airflow, all while using less energy (compared to a standard efficiency motor). The fan can also be operated in a low-speed continuous fan mode for constant filtration and air movement.

Count on a premium Daikin brand air handler to deliver *Comfort for Life* for your family.

The Daikin Comfort Promise

Ultimately, the commitment to provide you with *Comfort for Life* is represented and reinforced in the Daikin Comfort Promise.

If, for any reason, the Daikin Comfort Professional has not met your expectations within one year of your equipment or system installation, please contact the installing Daikin Comfort Pro and ask them to honor the Daikin Comfort Promise. The

Daikin Comfort Pro will return to your house to resolve any issues that you have with your installation at no cost to you.

As part of formally maintaining the Daikin Comfort Pro distinction, the Daikin Comfort Pro will make all reasonable efforts to resolve any concerns you have within one year of your equipment installation. If a Daikin Comfort Professional does not meet your expectations, they risk losing the ability to sell Daikin products.

With the Daikin Comfort Promise, you can have peace of mind that your Daikin Comfort Professional will continue to earn your business well after the sale. If not, they cannot be a Daikin Certified Professional. Period.

COMFORT-ENHANCING FEATURES:

- 1** All-Aluminum Coil – with special grooved tubing provides efficient cooling and durability for long-lasting comfort.
- 2** Internal Thermostatic Expansion Valve (TXV) – simplifies installation and controls refrigerant flow for efficient cooling.
- 3** Variable Speed Electrically Commutated Motor (ECM) – provides gradual startup and shutdown for unobtrusive operation with lower energy consumption (compared to a standard efficiency motor). Constant low-speed operation for outstanding filtration and comfort levels.
- 4** Viewable Control Board with LCD Display – for service status indications without removing access panels. Easy component access reduces installation and service time.
- 5** ComfortNet™ Control Compatibility – allows use of specially designed full color LCD display thermostats designed to ensure your system is setup to operate at its peak efficiency level.

COMFORTABLE LIMITED WARRANTY* PROTECTION

*Complete Warranty Details available from your local dealer or at www.daikincomfort.com. To receive the 12-year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

PREMIUM COMFORT FEATURES:

ComfortNet™ Premium Control System

The Daikin DVPVC Air Handler is ComfortNet compatible. ComfortNet provides a host of comfort and convenience features for an entirely new level of home comfort control, starting with the easy-to-read full-color LCD display on the ComfortNet thermostat.

With either ComfortNet thermostat you can quickly change your programmed schedules and temperature settings through the user-friendly interface. The advanced CTK04 provides wireless network connectivity options allowing you to change your system settings remotely via the web or your smart phone and offers wireless accessory add-ons designed to offer comfort and convenience.

The CTK04 ComfortNet thermostat will let you know when it's time to change your air filter, or when other system maintenance may be needed. You can customize the screen appearance of your thermostat, see the outdoor temperature, and even see a history of system changes you've made over time.

Ask your dealer about ComfortNet — control that's simple, accurate, automatic and very convenient.

- Quickly change programmed schedules and temperatures
- Know when it's time for maintenance or a filter change
- Customize screen appearance
- Display outdoor temperature and system history

Check with your dealer about installation requirements and current compatibility with different smart phone models.

Daikin brand air handlers are designed to maintain indoor comfort and energy-efficient operation.

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

DAIKIN: THE PREMIUM BRAND INDUSTRY LEADER

Daikin Industries, Ltd. (DIL) is a global Fortune 1,000 company that celebrated its 90th anniversary in May 2014. The company is recognized as the largest HVAC (Heating, Ventilating, Air Conditioning) manufacturer in the world. Daikin is primarily engaged in developing indoor comfort products and systems and refrigeration products for residential, commercial and industrial applications. Its consistent success is derived, in part, from a focus on innovative, energy-efficient and premium quality indoor climate and comfort management solutions.

Improving your home's complete indoor comfort system should not be an afterthought.

Whether it's time to replace a component in an existing central HVAC system, or to install a totally new system, Daikin brand products can provide dependable comfort and efficiency for your family – for every season – *Comfort for Life*.

ComfortNet™ System: comfort control from anywhere

Many Daikin brand products are ComfortNet™ Communicating System compatible. If you seek ultimate home comfort, ComfortNet offers advanced diagnostics, automatic maintenance alerts, continuous monitoring of the system's performance and even remote monitoring and control options.

- Advanced Diagnostics
- Automatic Maintenance Alerts
- Continuous System Monitoring
- Remote Monitoring and Control

Clean Comfort™ indoor air essentials

Indoor comfort in your home is about more than just adjusting the temperature on the thermostat. In fact, a central heating and cooling system offers just the basics with regard to enhanced comfort for you and your family. Indoor air quality products and systems quite frequently are treated as accessories. We define them as indoor air essentials:

- Filtration
- Purification
- Ventilation
- Humidity Control
