GPG14M AND GPG16M
PACKAGED GAS/ELECTRIC UNITS

ENERGY-EFFICIENT COMPRESSOR
UP TO 16 SEER, 81% AFUE

Multi-Position Installation

At Goodman, we believe in American dependability. Units are designed, engineered and assembled in the U.S.A.
The best packaged system is the kind you don’t have to worry about. It comes on the moment you need it and then runs quietly and efficiently all year long. The Goodman GPG14M and GPG16M units are loaded with features designed to provide outstanding performance for years to come. We use advanced techniques and materials so you know the cozy, even temperature you feel in every corner of your home is an energy-efficient trend that’s here to stay for many years.

Goodman will keep you cool as a cucumber.

Don’t let high utility bills make you lose your cool.

Our complete line of packaged systems are priced to help add comfort to your budget from a local independent Goodman dealer. And that’s only the beginning. We want you to smile every time you open your utility bill, so we design energy-efficient technology into our units.

Taking pride in our company heritage.

Goodman brand heating and cooling systems are designed to provide refreshingly affordable and energy-efficient indoor comfort solutions using advanced technology. But the company ultimately adheres to some old-fashioned values too. Goodman believes in the integrity of the American worker. That’s why Goodman brand heating and cooling systems are designed, engineered and assembled in the United States.

Experience reliable indoor comfort for everyone in your home season after season.
A LOT GOES INTO EVERY GOODMAN® BRAND
GPG14M AND GPG16M PACKAGED UNITS

The art of precision

Efficient Cooling Capacity – 5 millimeter (select models) refrigeration grade premium copper tubing and aluminum fin condenser coil configuration delivers outstanding heat transfer properties.

All-Aluminum Evaporator Coil – A single metal solution that is designed for enhanced durability and performance (select models).

Goodman packaged units simply work the way they’re suppose to, making each one a thing of beauty.

Multi-Speed ECM Blower Motor – Provides quiet system startup and shutdown with highly-efficient performance.

Refrigeration-Grade Premium Copper Tubing and Aluminum Fin Condenser Coil Configuration – Delivers outstanding heat transfer properties with R-410A refrigerant.

Heavy-Gauge Galvanized Steel Enclosure with Powder-Paint Finish – Protects your system from extreme outdoor elements.

Fully-Insulated Blower Compartment – Designed for quiet performance. Panels are conveniently located to provide easy access.

Self-Contained Packaged Unit – Designed for multi-position installation.

COMPONENT UPGRADE OFFERS BETTER PERFORMANCE

The aluminized steel, tubular primary heat exchanger featured in Goodman brand packaged units is likely the most essential component in a packaged unit’s performance. This distinctive heat exchanger employs wrinkle-bend technology which was developed to deliver extraordinary durability and long-term reliability.

When your current packaged unit breaks, it’s good to know that your local, independent Goodman® brand contractor has financing options available to help defray what might be considered an emergency purchase for your home.
The 81% AFUE rating on this packaged unit means that 81 cents of every energy dollar warms your home. The Department of Energy (DOE) established the AFUE (Annual Fuel Utilization Efficiency) system to calculate the annual operating cost of residential packaged units.

COUNT ON OUTSTANDING LIMITED WARRANTY* PROTECTION

* Complete warranty details available from your local dealer or at www.goodmanmfg.com. To receive the 20-Year Heat Exchanger Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.
